Activistas de la Forma

Somos creadores de formas, aprendemos en el taller, buscamos producción más limpia, experimentamos con materiales reciclados y con técnicas lógicas a la forma, creemos que el que el hacer se desarrolla con la práctica y en el trabajo de la mano. Es un espacio donde maestros y alumnos trabajamos en el desarrollo de productos de diseño, desde la mirada de la morfología, creemos que si un diseño es lógico a su forma, es funcional y así mismo que si funciona, es formalmente idóneo. La inspiración de todo lo que hacemos está en la OBSERVACIÓN DE LA NATURALEZA.

Todo lo nuevo despierta en mí una curiosidad muy grande, me gusta aprender cosas nuevas, siempre varía mi curiosidad jamás me quedo en una sola cosa, actualmente la ha despertado la transformación de la forma, pero no se quedará ahí, otros de mis gustos son los deportes, videojuegos, ejercicios y de música cualquier tipo de rock o música clásica hace que mi imaginación vuele, actualmente soy estudiante de arquitectura una vocación que empezó cuando niño en ese entonces no lo sabía pero llamaba mucho mi atención al ver obras en construcción, soy Andrés una persona que le gusta lo nuevo.

Entre versos, suspiros e ideas existo, la inspiración y la pasión llenan mi alma y rigen mi existencia. En un mundo que muchas veces es gris e imperfecto busco dejar mi huella de color, diseñando, inspirando, soñando y amando desde la luz y desde la oscuridad, desde lo dulce y lo amargo, desde lo real y lo fantástico. Reconociendo siempre la delicada perfección del contraste en la existencia, hallando hilos de luz entre las tinieblas, distinguiendo lo importante entre lo mundano y despertando la magia de la fantasía en la realidad.
